MR. DEAN K. GANHORN
 PRESIDENT.
 MUSTANG DYNAMOMETER
 2300 PINNACLE PARKWAY
 TWINSBURG OHIO 44087

DEAR MR. GANZHORN

This is in response to your request for information concerning the specifications of the dynamometers required by the Vehicle Emission Inspection Program of the Estado de México.

The Emissions Inspection Systems to be certified should meet the requirements of California BAR 97 specifications, dated May 1996 with addendums through March 1997.

For dynamometers, the scale will not be a requirement.

The Mustang Dynamometer ASM-100 is granted a provisional approval in the Estado de México. The full approval will be granted when approved by the California BAR.

Sincerely yours

GOBIERNO DEL ESTADO DE MEXICO
